QUALITY SYSTEMS: Atlas Stones Group is ISO certified, and conforms to GMP standards. Our high-quality salt undergoes numerous quality checks and we make certain that this million-year-old rock salt is handled with utmost care and that it never loses its original & organic nature.

TARIFF: 2501.0021

APPLICATIONS: These eye-catching salt bricks are the newest construction material for building salt walls in home, businesses or restaurants adding aesthetic appeal. The appealing colors of these walls complement the rest of the décor. Because of salt's intrinsic nature, these bricks can also be installed specifically for a room designed for aging beef and other similar products.
