

Atlas Stones Group

Himalayan Pink Salt Salt Licks

DESCRIPTION: : Himalayan Pink Salt Licks

INGREDIENTS: Himalayan Rock Salt

ADDITIVES: Does not contain any additives.

COUNTRY OF ORIGIN: Pakistan

PROCESSED & PACKAGED: Quaidabad, Pakistan

How is Pink Salt Processed: Using the time-honored room-and-pillar mining extraction technique, Himalayan pink mineral salt is extracted from salt reserves that date back centuries in the Himalayan mountain range.

QUALITY SYSTEMS: Atlas Stones Group is ISO certified, and conforms to GMP standards. Our high-quality salt undergoes numerous quality checks and we make certain that this million-year-old rock salt is handled with utmost care and that it never loses its original & organic nature.

TARIFF: 2501.0021

APPLICATIONS: Salt licks are regularly used by animals to supplement their normal salt intake. It's perfect for animals like horses, deer, cattle, hogs, and others who enjoy licking salt.

Harmonized Tariff: 2501.0021

Laboratory Report :

Parameter	Value Found
Chloride as NaCl	98.8%

Magnesium as Mg	0.19%
Moisture	0.15%
Water insoluble matter	0.12%
Sulphate as SO	0.68%
Iron as Fe	0.45%ppm

- Detail analysis available upon request

Available Sizes (cm):

Dimensions	Type	Weight(kg)
8x12	Regular Natural Stone	1.8
8x11.5	Cylindrical	1.6
14.5x14.5x14	Compressed Block	6.8

* These are the ones usually exported. Sizes can be machined to customer specifications

Product Attributes:

Type	Colors
Natural Stone	Amber
Cylindrical	Amber
Compressed Block	Dark Pink, White, Light Green

Packaging Data:

Packaging type: Corrugated Cardboard

Pallet Size: 44" x 43"

Pallet type: Plastic / Hardwood

Storage Conditions:

Store in a dry environment with low humidity levels
